

**4th Conference on
Water Observation and Information Systems for Decision Support,
BALWOIS 2010.**

25-29 May 2010, Ohrid - Republic of Macedonia

Report by Hasan ÖZDEMİR
Recipient of an EMS Young Scientist Travel Award

The fourth BALWOIS scientific conference on Water Observation and Information System for Decision Support was held in Ohrid, Republic of Macedonia, from 25th to 29th May 2010. More than 30 different country participants presented 350 presentations (oral and poster) during the conference on following topics: Climate and Hydrology, Environment and Human activities, Water related risks, Integrated Water Resources Management, Ecohydrology and Hydrobiology and, Computing and Technologies.

I am very thankful for EMS Young Scientist Travel Award. It gave me the chance to be able to attend the conference and meet researchers of different countries. Also, the conference gave me an opportunity to see what sort of researches were doing around the world on water related risks. So, it was very interesting and intensive for me.

In addition, I would like to thank all of BALWOIS 2010 organizers and their hospitality. I hope I will be able to attend the next BALWOIS 2012 conference! I encourage other researchers to attend in BALWOIS conferences and get the chance to find other scientists or researchers with the same interests and share their experiences and achievements.

Sincerely.

Dr. Hasan ÖZDEMİR
